TASK 15 – EXECUTIVE COMPANY HEALTH SCORECARD

Final evidence document | Reporting period: September 2026

Dashboard values used: Attendance Rate 94.5%; Overtime Share 0.815%. These match the dashboard screenshot supplied for this evidence document.

TASK 15 – EXECUTIVE COMPANY HEALTH SCORECARD

Reporting Period: September 2026

1. TOTAL HEADCOUNT

• Current Value: 440

• Target: Not defined in kpi_targets

• Trend: Trendline displayed on dashboard; previous-month comparison is not stated in the written KPI target data.

• Status: ■ NOT RATED

• Justification: Tracks the company's workforce size and helps management understand staffing levels.

• View Total Headcount details

2. MONTHLY ATTRITION

• Current Value: 0.342%

• Target: ≤ 1%

• Trend: Trendline displayed on dashboard.

• Status: ■ ON TARGET

• Justification: Measures employee exits and helps management monitor workforce retention.

• View Monthly Attrition details

3. ATTENDANCE RATE

• Current Value: 94.5%

• Target: ≥ 94%

• Trend: Trendline displayed on dashboard.

• Status: ■ ON TARGET

• Justification: Measures employee attendance and helps management monitor workforce availability.

• View Attendance Rate details

4. OVERTIME SHARE

• Current Value: 0.815%

• Target: Department-specific – 0.5% or 3%

• Trend: Trendline displayed on dashboard.

• Status: ■ NOT RATED

• Justification: Tracks overtime levels and helps identify workload pressure. A reliable company-wide status requires department-level target comparison.

• View Overtime Share details

5. NET PROFIT

• Current Value: 15M

• Target: Not defined in kpi_targets

• Trend: Trendline displayed on dashboard.

• Status: ■ NOT RATED

• Justification: Measures company profitability and helps management evaluate financial performance.

• View Net Profit details

6. OPERATING MARGIN

• Current Value: 18.67

• Target: Not defined in kpi_targets

• Trend: Trendline displayed on dashboard.

• Status: ■ NOT RATED

• Justification: Shows how efficiently the company generates operating profit from revenue.

• View Operating Margin details

7. TASK COMPLETION RATE

• Current Value: 86.3%

• Target: 80% where defined

• Trend: Not available in the current metric view; it has no date/sprint field.

• Status: ■ ABOVE TARGET*

• Justification: Measures task completion and helps management monitor delivery progress.

• Note: The existing metric view is a company-wide aggregate, not a September-specific monthly measure. The target is not defined for department D10.

• View Task Completion Rate details

8. PAYROLL % OF REVENUE

• Current Value: 69.17%

• Target: Not defined in kpi_targets

• Trend: Trendline displayed on dashboard.

• Status: ■ NOT RATED

• Justification: Shows how much of company revenue is spent on payroll.

• View Payroll % of Revenue details

TRAFFIC-LIGHT DEFINITIONS

Green – Meets or exceeds the defined target. Amber – Near the target and requires monitoring. Red – Does not meet the defined target. Not Rated – No applicable target or insufficient comparison data.

EXECUTIVE OBSERVATIONS

1. Monthly attrition is within its defined target.

2. Attendance is above its 94% target based on the dashboard value of 94.5%.

3. Task completion is above 80%, subject to the metric-view limitations noted above.

4. Overtime requires department-level comparison before assigning a company-wide status.

5. Other KPIs require defined targets before traffic-light assessments can be assigned.

DATA NOTES

KPI values are sourced from the existing metric views.

Targets are sourced from kpi_targets.

Trendlines are displayed for seven KPIs; Task Completion Rate has no time field in its current view.

No target or traffic-light status has been invented where supporting data is unavailable.

REFLECTION – IF ONLY FIVE KPIs WERE ALLOWED

If the executive scorecard were limited to five KPIs, I would remove:

1. **Total Headcount** – Provides workforce size information, but does not directly measure company performance against a defined target.

2. **Overtime Share** – The target differs by department, so a reliable company-wide status requires department-level comparison.

3. **Task Completion Rate** – The existing metric view is a company-wide aggregate rather than a month-specific measure, and the target is unavailable for department D10.

FIVE KPIs TO RETAIN

1. Monthly Attrition – Monitors employee retention.
2. Attendance Rate – Measures workforce availability.
3. Net Profit – Measures overall company profitability.
4. Operating Margin – Measures operating profitability.
5. Payroll % of Revenue – Monitors payroll costs in relation to revenue.

CONCLUSION

These five KPIs provide a focused view of workforce health, attendance, profitability and payroll efficiency.

TASK 15 – EVIDENCE CHECKLIST

1. Executive Company Health Scorecard dashboard created in Apache Superset.
2. Eight headline KPI cards added to the dashboard.
3. Month selector configured and tested.
4. KPI targets and justifications documented.
5. Traffic-light definitions and executive observations documented.
6. Reflection identifying three KPIs to remove if limited to five completed.
7. Dashboard screenshot saved as Reports/Task15_Executive_Health_Scorecard.png.

FINAL VALIDATION

Dashboard: Created

Headline KPIs: 8

Month selector: Configured

Executive summary: Added

Reflection: Added

Screenshot evidence: Saved

Task detail links: Verified by user.
